gap'**

**'evolutionary musicology
May 15th, 2020 - history the origins of the field can be traced
back to charles darwin who wrote in his descent of man
when we treat of sexual selection we shall see that primeval
man or rather some early progenitor of man probably first
used his voice in producing true musical cadences that is in
singing as do some of the gibbon apes at the present day
and we may conclude from a widely spread analogy'**
