'vocal doubling record it for real or use plug in effects

May 21st, 2020 - vocal doubling is a standard part of many recording and mixing sessions these days the practice of real doubling the layering of extra near identical takes of one or more recorded tracks on top of the original recorded track has been around for close to 100 years now the concept of artificially doubling in order to save time and media space was introduced in the 1960s which essentially'
