worldwide"how

elephants protect

each other from wild

predators

May 16th, 2020 -

however some pack

predators like lions

and hyenas are able

to coordinate and

successfully break

into the protective

barrier to harm

calves this happens

less frequently to

herds with more

experienced

members some

young elephants

make the mistake of

wandering too far

from their protective

herd and that makes

for an easy pick for

predators'
