BASIC RUBBER COMPOUNDING RUBBER COMPOUNDING BASICS

*October 10th, 2018 - In developing a rubber compound it is essential to mix the raw dry rubber with various compounding ingredients The process of sequentially adding the ingredients into the raw rubber is termed "compounding" and the resulting final homogeneous mix is referred to as the "rubber compound?"***Rubber Helvoet**

October 17th, 2018 - Helvoet is a leading

company for hybrid products using bonding technologies where we have developed several special rubber compounds With this process a rubber part and a metal or plastic part can be combined and the adhesion is stronger than the rubber tear resistance itself'

'TECHNICAL BULLETIN Cancarb
